

Technology Transfer Initiatives

- Objectives
 - Wider more varied distribution of results
 - Enhance the impact of DEEP research
- TT Committee
 - members
 - budget

Identified TT Initiatives: Underway

- Maintenance Manual and Training Modules
- 2-page Project Summaries
- Guide to Diesel Sampling in U/G Mines
- Web Site Management/Maintenance

Identified TT Initiatives: Planned

- Conference Presentations
 - MDEC
 - MASHA
- Guide to Particulate Filter Utilization
- Cost-Benefit Analysis of Tested Technology

Maintenance Manual and Training Modules

■ Objective:

- Modules to be used by recognized training institutions
- Encourage maintenance practices which impact on exhaust quality

■ Status:

- Norcat-Sudbury is developing the modules
- Real test of training modules planned at IMC Kalium mine site

Two Page Project Summaries

■ Objective:

- Provide simple language summaries of completed DEEP projects
- Encourage interested readers to go on to full reports

■ Status:

- Two page summaries for completed reports on DEEP Web Site

Guide to Diesel Sampling in U/G Mines

- Objective:
 - Document DEEP DPM sampling experience
 - Practical DPM sampling guide for miners
- Status:
 - French/English reports on DEEP Web Site

DEEP Web (www.deep.org) Site Management/Maintenance

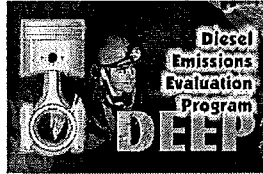

- Objective:
 - Comprehensive public access Web site for all DEEP deliverables
 - Maintenance of site well beyond DEEP Program termination
- Status:
 - Addy Majewski - ECOpoint, Web site maintenance on-going

Conference Presentations

- Objective:
 - Communicate DEEP knowledge and technology beyond the Web site
- Status:
 - MDEC
 - Discussion with Mines and Aggregates Safety and Health Association (MASHA) - Sudbury Spring Conference

DPM Filter Technology Transfer

- Objective
 - Enhance the impact of field studies at Brunswick and Inco
- Status
 - Field tests still underway
- Deliverables
 - Guide to Particulate Filter Utilization
 - Cost-Benefit Analysis of Tested Technology

What's next?

- Identify other TT opportunities as field projects wind down
- Maintain Web site and publicize its content
- Seek feedback from stakeholders as to other potential TT opportunities
