

## 20<sup>th</sup> Annual MDEC Conference

On behalf of the MDEC Committee we would like to offer a sincere thanks to all those who took part in the **20<sup>th</sup> Annual MDEC conference** this past October 7<sup>th</sup> to October 9<sup>th</sup> 2014 in Toronto, Ontario. This was an exciting year, with a pre-conference field trip to Vale Copper Cliff Mine in Sudbury and a workshop on 'OEM Integration of Tier 4 Engines'.

It is with the valued support and contributions of the following groups and organizations we were able to host such a successful event, all sharing the common goal of Health and Safety and ultimately the reduction of diesel emissions within mines.

- Key note speakers, Presenters, Session Chairs and Facilitators
- 131 active participants coming from near and far: Australia, Canada, Finland, Germany, Sweden, Switzerland and the United States
- MDEC Management Committee and the International Advisory Committee, consisting of generous volunteers from various organizations

Also, we would like to extend a special thank you to our Sponsors. It is with their generous support we were able to raise the quality of our event.

Please note that all conference presentations can be found below and we welcome you to take a closer look at your convenience.

Kind Regards,

Mahe Gangal, MDEC Conference Co-Chair
