

21st Annual MDEC Conference

On behalf of the MDEC Committee we would like to offer a sincere thanks to all those who took part in the **21st Annual MDEC conference** this past October 6th to October 8th 2015 in Toronto, Ontario. This was an exciting year, with a pre-conference field trip to Environment Canada's Air Quality Research Facility in Ottawa and a workshop on "NO₂ and DPM Measurement Techniques".

It is with the valued support and contributions of the following groups and organizations we were able to host such a successful event, all sharing the common goal of Health and Safety and ultimately the reduction of diesel emissions in underground mines.

- Key note speakers, Presenters, Session Chairs and Facilitators
- All participants coming from near and far: Australia, Canada, Finland, Germany, and the United States
- MDEC Management Committee and the International Advisory Committee, consisting of generous volunteers from various organizations

Also, we would like to extend a special thank you to our Sponsors. It is with their generous support we were able to raise the quality of our event.

Please note that conference web proceedings/presentations can be found at www.mdec.ca.

Kind Regards,

Mahe Gangal, MDEC Conference Co-Chair
