

Dekati®

Fine Particle Measurement Solutions

Click here for more details

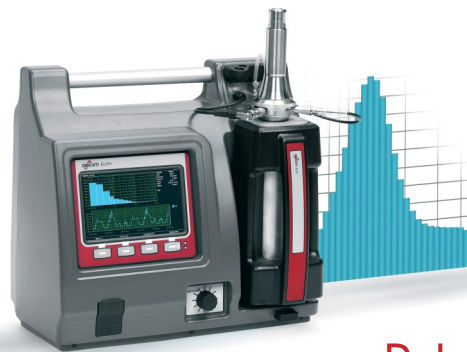

Dekati® DePS™-Go

- ▶ Portable real-time electrical particle sensor
- ▶ Direct measurement of particle concentration
- ▶ Maintenance free with replaceable detector module

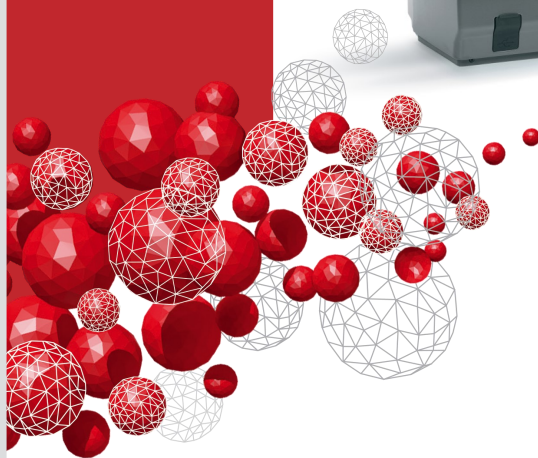

Dekati® eFilter™

- ▶ Standard gravimetric filter measurement combined with
- ▶ Sensitive integrated real-time measurement of PM, PN and LDSA
- ▶ Fully automated operation

Dekati® ELPI®+ product line

- ▶ Real-time particle size distribution
6 nm—10 µm in up to 500 size classes
- ▶ 10 Hz sampling rate
- ▶ Direct sampling from up to 180 °C
- ▶ Possibility for chemical characterization
of size classified samples
