

EXPERIENCE

OVER 25 YEARS OF MANUFACTURING
THE EMISSION CONTROL SOLUTIONS

PERFORMANCE

EXCELLENT REDUCTION OF HARMFUL
CO, HC, PM AND NO_x EMISSIONS

VERIFICATION

A WIDE RANGE OF ARB, EPA VERIFIED
AND MSHA LISTED SYSTEMS

YOUR DIESEL ENGINE **EMISSION CONTROL** JUST **GOT EASIER!**

The **MOST ADVANCED emission control solutions** for the mining industry. Nett Technologies Inc., is an emissions control company that specializes in designing, developing and manufacturing of pollution control solutions for today's sophisticated compression and spark-ignition engines. From scoop trams, drill jumbos, large dump trucks to on-site small utility diesel engines, Nett Technologies Inc. has a custom engineered solution that's right for your emission control requirements.

- ✓ 3-Way Catalytic Converters
- ✓ Diesel Oxidation Catalysts
- ✓ Diesel Particulate Filters
- ✓ Selective Catalytic Reduction
- ✓ Standard Mufflers and Silencers
- ✓ Add-On Mufflers and Insulation
- ✓ Exhaust Gas Diluters
- ✓ Electronic Systems
- ✓ Noise and Emission Testing
